

FRESH-AIRE UV

# BLUE-TUBE UV<sup>®</sup>

## Blue-Tube UV Receives Utility Patent

**Triatomic Environmental, Inc** – Manufacturer of the **Fresh-Aire UV** and **Blue-Tube UV** brand of UV lights and a leading innovator in the field of germicidal and photocatalytic ultraviolet light systems has received US patent #7,704,463 for their Blue-Tube Ultraviolet Light System.

The patent covers the use of UV light products on the 24 VAC control transformer of an HVAC system and also includes their innovative magnetic "Z" mounting bracket. Triatomic revolutionized the industry when it launched the 24 VAC UV light in 2005 providing contractors a simple means of installing a UV light into residential HVAC systems.
